

The Random fall

I am the rain, the important factor
Who comes from the Nature
to secure your life
and to make the future

I come with the features
that is the thunder and lightning
To make you learn
What is world

Some of them hate
But I doesn't heat
Because this is their fate
And I doesn't care

I come to make them fresh
In the morning rush
But they make a rush
and sometimes they make a rush

If I fall in your head
And make you fall in bed
I'm the refresher of the world
Wait and watch this is my world
